2017 – Present

RESEARCH EXPERIENCE

National Research University Higher School of Economics Moscow, Russia

- Topic: Variance reduction techniques for Plackett-Luce distribution
- Supervisor: Dmitry Vetrov
- Description: Conducting research on causal inference and variance reduction techniques for discrete latent variable models with applications in structure learning of DAGs, TSP, ranking, etc.

Present

National Research University Higher School of Economics Moscow, Russia

- Topic: Conditional Generators of Words Definitions
- Supervisor: Dmitry Vetrov
- Description: Work proposes conditional language model for word's definitions. Conducted experiments show that one particular word embedding contains information about most meanings of the corresponding word and that particular components of word embeddings can be interpretable.
